# Madison County

Located in southwestern Montana, Madison County is Montana's 30th most populous with 6,851 residents, according to the 2000 Census.

Virginia City, the county seat, is the state's 122nd largest city with a population of 130. Madison County was established in 1865. According to the *Montana Almanac*, the Madison River was named by Lewis and Clark in honor of James Madison who was then U.S. Secretary of State. Virginia City was the state's first town incorporated in 1864. It was famous for its gold fields. The city was first named Varina in honor of Confederacy President Jefferson Davis's spouse. Unionist and local judge, G. G. Bissell changed it to Virginia.

Historical enthusiasts, with the help of the Montana State Legislature, the State of Montana, residents of Virginia City, the Virginia City Preservation Alliance and other groups, are working to preserve the landmarks created in Virginia and Nevada cities for future generations.

According to the U.S. Bureau of the Census, median income for Madison County households in 1997 was \$28,831. The county is 3,602.9 square miles in area; 3,586.6 square miles in land area and 16.3 in inland water area.

County residents experience the four distinct seasons. According to the *Western Regional Climate Center*, the average minimum temperature in Virginia City in January between 1948 and 2000 was 11.3 degrees above zero. The average maximum temperature in July was 80.4 degrees above. The annual precipitation during the same period was 15.79 inches and the growing season was from June 19 to Sept.10 (last and first frost).

PLEASE NOTE: Because of time and budget constraints, we are only able to update our county fliers periodically. Individual tables are updated on a more frequent basis. You can call us if you'd like the most current information for a particular county. The **Annual Averages for County Employment By Industry** are updated annually, usually in June. The **Top Employers** are updated annually. **Per Capita Income** statewide is usually released late spring. **Population data for Montana** is released in late December and county data in March. The **Annual Average Labor Force** information is benchmarked annually and numbers available before March. The other tables contain Census information and will be updated every 10 years. You can also look for more current information on our website listed on the front of this publication.
